Stay Connected with Our Progress

MedFEST

We're excited to be part of the second edition of **MedFEST** — an innovative event organized by **POLITEHNICA Bucharest**, dedicated to medical engineering and its transformative impact on science and healthcare.

On February 26-27, we invite all of you to visit the NerveRepack stand, where we'll showcase our latest advancements in neural interfaces and neuroprosthetics. This is a great opportunity to connect, share ideas, and explore how technology and innovation impact the future of medicine.

Call for Abstracts: International Symposium on Bio-Structures Integrity

Our partner INEGI is involved in the organizing team for the International Symposium on Bio-Structures Integrity as part of the **6th International Conference on Structural Integrity (ICSI 2025)**, scheduled for September 1-4, 2025, in Funchal, Madeira Island, Portugal.

The symposium will highlight the latest research on the structural integrity of biomedical devices, biological systems, and bio-inspired materials. Researchers from both academia and industry are invited to submit extended abstracts.

Submit your abstract and share your research results!
